Executive Proposal

Prepared for: Randy Newcomb
Senior Advisor, The Omidyar Group
Founding President & CEO, Humanity United

Organizations addressing complex global challenges require strong execution in addition to a compelling mission. Whaz is an AI-powered strategy and execution platform designed to help mission-driven organizations align teams, improve decision-making, monitor outcomes, and scale initiatives with greater clarity and accountability.

Mission Challenge	Whaz Solution	Expected Benefit
Complex multi-stakeholder initiatives	Build OS	Centralized planning and execution
Limited visibility into progress	Executive Dashboards	Real-time impact and KPI tracking
Strategic prioritization	AI Decision Intelligence	Data-informed decisions
Cross-functional coordination	Workflow Optimization	Better collaboration and accountability
Scaling programs	Growth Engine	Repeatable operational systems
Long-term impact planning	Venture Blueprint	Structured execution roadmap

Why Whaz

Whaz complements mission-focused leadership by providing an execution layer that combines AI insights with human expertise. The platform helps organizations improve operational maturity, align strategic priorities, and measure progress without compromising their mission.

Next Step

I would welcome the opportunity to discuss how Whaz can support organizations driving systemic change through a brief 20–30 minute conversation.

CLARITY. STRATEGY. EXECUTION. RESULTS.
We combine AI insights with human intelligence
to help you make better decisions and build what matters.
